Recycled Cardboard

The remains of paper from the manufacturing processes, together with the paper that has reached the end of its lifespan, become an ecological and sustainable material. During the paper recycling process, the amount of virgin fibres used is drastically reduced, contributing to the conservation of forests. In addition, the amount of energy used in the process of recycled paper is considerably reduced, compared to the energy required for the production of traditional white paper.

Los restos de papel de los procesos de fabricación, junto al papel que ha llegado al final de su vida útil, se convierten en un lienzo ecológico y sostenible. Durante el proceso de reciclado del papel, la cantidad de fibras vírgenes utilizada se reduce drásticamente, contribuyendo así a la conservación de los bosques. Por otra parte, la cantidad de energía utilizada en el proceso de fabricación del papel reciclado se reduce considerablemente, en comparación con la energía necesaria para la elaboración del papel blanco tradicional.

Did you know that paper can be recycled up to 11 times on taking different shapes of paper or cardboard?

¿Sabías que el papel se puede reciclar hasta 11 veces adoptando distintas formas de papel o cartón?

ACTIVE NOISE CANCELLING

ANC technology (Active Noise Cancellation) operates a system designed to reduce ambient noise. Whether you are listening to your favourite album, enjoying a podcast or simply wish to reduce the outside noise in your environment, ANC headphones are the perfect gift.

La tecnología ANC utiliza un sistema que reduce el ruido externo. Si desea escuchar su disco favorito, disfrutar de un podcast o simplemente suavizar el ruido exterior del entorno, los auriculares ANC son el regalo perfecto.

Products certified with the Recycled Claim Standard (RCS). This seal ensures that the recycled content is present from the start of production to the end of the supply chain, thus guaranteeing the end consumer that the manufacturing materials come from recycled material.

Productos certificados con sello Recycled Claim Standard (RCS). Este sello asegura que el contenido de material reciclado está presente desde el inicio de la producción hasta el final de la cadena de suministro, garantizando así al consumidor final que los materiales de fabricación provienen de material reciclado.

RABS

RECYCLING LOVE

RABS (recycled ABS) is a recycled and highly recyclable plastic, highly resistant, suitable for a multitude of applications. The reuse of this material, coming from various pre- and post-consumer collection sources, makes it an eco-friendly solution for industries and consumption, without diminishing the high qualities that define it.

El RABS (ABS reciclado), es un plástico reciclado y altamente reciclable, de gran resistencia, apto para multitud de aplicaciones. La reutilización de este material, procedente de diversas fuentes de recolección pre y post-consumer, lo convierte en una solución eco-friendly de las industrias y el consumo, sin mermar las altas cualidades que lo definen.

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es SÍ, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

MADE FROM -RECYCLED- LEATHER

Leather, an ancestral material known for its durability, soft touch, and flexibility. This recycled, and recyclable, material enables a sustainable option that rescues the fibers discarded through manufacturing processes, thus minimizing the waste of material and contributing to reduce the environmental footprint. All of it keeping the quality of the resulting product.

El cuero, un material ancestral que destaca por su durabilidad, tacto suave y flexibilidad. Este material reciclado y reciclable es una opción sostenible que rescata las fibras desechadas en los procesos de fabricación, minimizando así el desperdicio de material y contribuyendo a su vez a reducir el impacto ambiental, manteniendo a la vez sus propiedades originales.

MADE FROM
-RECYCLED-
MILK CARTON

Milk bricks are mostly composed of cardboard and aluminum. During the recycling process, the different materials of the package are sorted out for reuse and re-purposing, thus supporting to the endless journey of the circular economy. This material features a great recycling capacity, as well as being light and resistant.

Los cartones de leche se encuentran compuestos en su mayor parte de cartón y aluminio. Durante su proceso de reciclado, se separan los distintos materiales del envase para su reutilización y nuevo uso, contribuyendo así a recorrer el camino infinito de la economía circular. Este material se caracteriza por su alto grado de reciclabilidad, así como por su ligereza y resistencia.

MADE FROM
COFFEE
-FIBER

Una solución circular a partir de los posos de café. La fibra de café se obtiene de la utilización de los residuos producidos en la obtención del café. Una alternativa sostenible que favorece la reducción del uso de plásticos, ahorro de energía en su proceso de fabricación y a su vez fomenta el cuidado del medio ambiente.

A circular solution from coffee grounds. Coffee fibre derives from the waste in the production of coffee. This is a sustainable alternative that reduces the use of plastics, saving energy in the manufacturing process and, at the same time, promoting the care of the environment.

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es Sí, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

Organic cotton, the cotton of our ancestors, grown using sustainable methods with low impact on the environment. The non-use of insecticides, fertilizers or other chemicals in the yarn and production processes results in a comfortable fabric, 100% plant-derived and hypoallergenic, in a natural weave that claims traditional agriculture.

Algodón orgánico, el algodón de nuestros ancestros, cultivado usando métodos sostenibles con impacto bajo para el medio ambiente. La no utilización de insecticidas, fertilizantes u otros productos químicos en el proceso de hilado y producción da como resultado un tejido cómodo, 100% derivado de plantas e hipoalergénico, de alta sostenibilidad en la cadena de suministro, en un tono natural que reivindica la agricultura tradicional.

Did you know that the use of organic cotton can reduce the environmental footprint by using up to 88% less water and 62% less energy?

¿Sabías que el uso de algodón orgánico puede reducir la huella ambiental al usar hasta un 88% menos de agua y un 62% menos de energía?

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es Sí, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

The Fairtrade Cotton label guarantees that the product comes from a traceable and sustainable sourcing chain and helps us to identify garments where 100% of the composition is traceable Fairtrade cotton. All of the cotton is Fairtrade certified, traded, audited and sourced from Fairtrade producers. Visit www.info.fairtrade.net

El sello Fairtrade Cotton nos garantiza que el producto proviene de una cadena de aprovisionamiento de compra trazable y sostenible y nos ayuda a identificar las prendas en las que el 100% de su composición es algodón Fairtrade trazable. Todo el algodón es certificado Fairtrade, comercializado, auditado y proviene de productos Fairtrade.
